Now for the method!

Once you have read this method you will realize quickly how simple it is and how quickly and easily you can use it to clear the casino bonuses we have listed above.

The main trick to using this method is to constantly **mix your bet on red and black if the opposite color comes out.**

Here is how it works: If your first bet is red \$1 and black comes out, you continue with betting \$2 on red (always twice as much), and continue to raise your bet until your color wins. When your color has come out; start betting \$1 on the opposite color again (black). Then simply repeat this betting pattern until you have cleared the casino bonus and move onto to the next casino.

Remember to always bet twice as much as the previous bet.

This strategy is very simple and fast to clear bonuses with.

Here is some follow up advice to use for this method.

Advice 1: Remember you can play for free at any of the above mentioned online casinos and test this method before you start to play with real money and get use to the software as well.

Advice 2: If you use this method with one of the above casinos, you can easily reach a win rate of \$100 or more in a short amount of time, after your winnings reach \$500 or more or you have cleared the bonus, you should consider moving onto the next casino on the list. The casino will start to get suspicious of your excellent win rate and this is not what we want.

Advice 3: You may be tempted to increase your bets to clear the bonus faster but unless you have deep pockets we recommend you stay at the \$1 betting amount until you have reached at least \$200 and then its up to you if you want to raise the bet to \$5 or more. Keep in mind we only need to reach \$500 profit or clear the bonus whichever comes first to show a great profit using this scheme and there are a ton of casino bonuses that you can target here to keep yourself going on bonus clearing.

Remember, it's best to stay under control when gambling and don't gamble more than you can afford to lose!

Best of luck at the tables!
